### **Border Belt Tobacco Research Station** **86 Border Belt Drive, Whiteville, NC 28472**

The Border Belt research facility is on 102 acres of fine, sandy loam soil typical of North Carolina's Coastal Plains region.

The current research program focuses on genetic studies on corn, soybeans, tobacco and peanuts – with rotation, fertility, chemical, crop management and tobacco-holdability studies.

## **The College of Agriculture and Life Sciences**

The College of Agriculture and Life Sciences educates students through its Office of Academic Programs, seeks new knowledge through its research division, the North Carolina Agricultural Research Service, and extends educational programs throughout the state through North Carolina Cooperative Extension.
